Our Location

Headquarters & Facilities

**Unit 1, Seev-Brook Park, 201 Chamberlain Road,
Jacobs, Durban, South Africa**

Head Office

Our head office serves as the administrative and strategic hub of the company. This is where our project managers, engineers, and client relationship teams work together to design solutions tailored to our clients' needs.

Equipped with modern communication and project management systems, the head office ensures smooth coordination across all ongoing projects in South Africa and beyond.

Our manufacturing and training facility is the heart of our operations. Here, we combine advanced fabrication equipment with skilled manpower to deliver high-quality steel components and assemblies.

ABOUT US

At Mypru Engineering & Consultants (Pty) Ltd, we believe that every great structure begins with a solid foundation not just of steel, but of trust, commitment, and innovation. Founded in 2016 and headquartered in Durban, South Africa, Mypru has grown into a multi-disciplinary steel contractor known for delivering turnkey solutions in design, fabrication, and erection of steel works. From concept to completion, our experienced team ensures that every project is built to the highest standards of quality, safety, and reliability.

"QUALITY FABRICATION WITH INGENUITY."

At Mypru Engineering and Consultants, we make it happen for our clients. We stand by our moto: "QUALITY FABRICATION WITH INGENUITY". Our unique selling point is to locate & recruit the best people in the business and match them with the most appropriate job. It is of utmost importance to continuously deliver products and services that meets the clients satisfaction, safely, with the best quality and within schedule and budget. Mypru Engineering and Consultants is a Level 2 BWO YOUTH B-BBEE contributor and supports and commits to the growth and advancement of women and previously disadvantaged groups MYPRU Engineering is 51% Black Youth female owned.

MISSION, VISION AND VALUES

OUR MISSION

At Mypru Engineering & Consultants (Pty) Ltd, our mission is to be more than just a steel contractor we aim to be a trusted partner that turns ideas into enduring structures. We are committed to delivering engineering excellence, building with integrity, and empowering industries with both the right talent and the right technical solutions.

OUR VISION

We aspire to be a leading engineering and consultancy company in Africa, recognized not only for our structural capabilities but also for our ability to deliver people-first solutions. By combining engineering excellence with talent empowerment, we envision a future where Mypru continues to shape skylines, strengthen industries, and inspire communities.

OUR CORE VALUES

- Excellence in Delivery
- Integrity & Trust
- Innovation & Adaptability
- People-Centered Approach

Products & Services

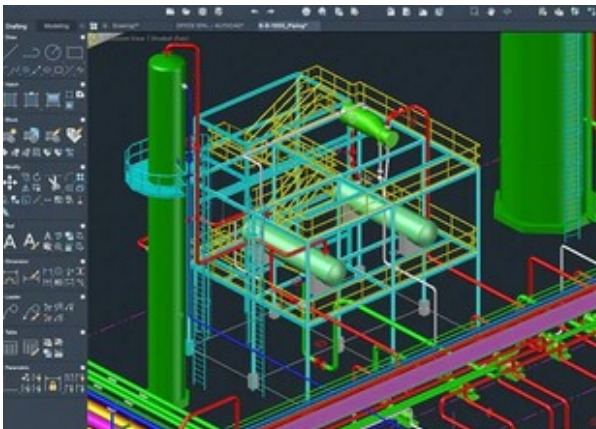

General steel fabrication

Precision cutting, welding, and assembly of steel components and structures tailored to project needs.

Structural Steel

Engineering and fabrication of load-bearing steel elements for industrial, commercial, residential, and utility projects.

Shop Detailing

Creation of accurate, production-ready drawings and plans to guide fabrication and assembly.

Tanks and Vessels

Fabrication of sturdy, custom-designed tanks and vessels for industrial applications.

Products & Services

Full Turnkey Solution

End-to-end project execution from initial design through fabrication and erection delivered under one cohesive process.

Corrosion Protection

Application of protective coatings and treatments to extend the lifespan of steel structures in challenging environments.

Rigging and Installation

Skilled handling and precise installation of heavy steel structures with a focus on safety and efficiency.

Products & Services

Piping

Fabrication and installation of piping systems for industrial and utility structures.

Metalwork

Custom metal fabrication services that include non-structural components and design elements.

Labour Broking and Recruitment

Provision of skilled labour ranging from welders to engineers to support temporary or long-term project needs.

TALENT MAPPING

At Mypru Engineering & Consultants, we strive to understand the technicalities and complexities of each project in order to identify the right candidate for every role. Our consultants begin by gaining a deep understanding of the client's business, construction requirements, and recruitment needs before embarking on the actual recruitment process.

With the capacity to fine-tune ground realities while maintaining a global vision, we leverage our alliances with international human resource and construction leaders. This enables us to manage service contracts, maintenance, and project construction anywhere in the world, upholding the same high standards.

Our aim is to be the long-term, single outsourced recruitment and construction partner for all our clients' needs. We believe that a collaborative hiring, construction, and project management process is a strong indicator of a company's success.

We are committed to training and capturing resumes of exceptional candidates through our strong network, brand reputation, and distinctive people management skills. Our dedication to providing the best talent, construction expertise, and project experience is reflected in the thoroughness of our candidate selection process.
